Congratulations City Manager Michael Davis

The Mayor and City Council voted on February 13, 2020, to appoint Michael Davis as the City's next City Manager. He has been in the Acting role since March 2019.

According to Mayor Elaine Allison, "Although it is hard to find a great City Manager, we feel like we have found a hidden gem. Mike's local government experience and leadership will help the City to move forward with the many important projects scheduled in our short and long-term future. On behalf of myself and City Council we welcome Mr. Davis to this new role."

Davis has more than 24 years of experience in local government. Since 2000, he has served as the City of Moraine's Economic Development Director. As Director he played a vital role in securing Fuyao Glass in the former General Motors site, has overseen the resurgence of the Dryden Road Corridor and has chaired numerous committees including 17 years of the regional Economic Development Summit.

Davis is excited about becoming Moraine's next City Manager and leading the City into the future. He shared, "I look forward to working with City Council, City staff, as well as the citizens of our community to continue the City's positive momentum within the region and thank Mayor Allison and the City Council for this opportunity."

Davis has several professional credentials and holds a Master Degree in Public Administration from Wright State University. He has served on various boards and commissions in the area from the I-70/75 Development Association, Businessfirst, and the KMO Chamber of Commerce.

Clerk of Council Received Master Municipal Clerk (MMC) Designation

Clerk of Council, Diane (Dee) Werbrich received her Master Municipal Clerk designation from the International Institute of Municipal Clerks (IIMC) earlier this year. The MMC designation is awarded to clerks who have completed demanding education requirements, have a record of significant contributions to their local government, their community and state. Currently, there are only 48 MMCs in Ohio.

"It is an honor to represent the City and I will continue to give my best to City Council, staff and the residents of Moraine," stated Ms. Werbrich. "Without the support of Council, this designation would not have been possible."

RESIDENTIAL LARGE TRASH PICK-UP

Please find listed below the guidelines for large trash pick-up, along with the dates that the Street Division will be in your neighborhood. Please note: several trucks from the Street Division will be picking up the disposal items separately. The Street Division is asking residents to assist in separating their disposal items. This service is not provided to businesses in the City.

Items Not Acceptable:

55 gallon drums, household garbage, asbestos material, swimming pool chemicals, pesticides, herbicides, fertilizers, photographic chemicals, propane tanks, fuel, oil, gas or oxygen tanks, compressed cylinders

Acceptable Items and Guidelines:

- Tree trimmings and/or brush must be no longer than 8 feet in length. We ask that residents stack all brush at the curb neatly with the butt end facing the street so that it may be easily loaded into the chipper. Please keep all brush separate from all other disposal items.
- Paint, batteries, motor oil, metals and appliances containing freon. Please keep all these disposal items separate.
- Tires should also be kept separate from all other disposal items. Only a total of eight truck and car tires will be accepted for disposal. Tractor tires will not be accepted.

KEEP MORaine BEAUTIFUL

Yard Cleanup Week April 27 - May 1

This spring beautify your yard and the outside of your property. From April 27 to May 1, stop by the Volunteer Office at the Municipal Building, 4200 Dryden Road. Pick up free gloves and trash bags to use only for cleaning up your yard and the outside of your property. Lend a helping hand to your neighbor if they are a senior citizen. Leave unwanted items and trash on the curb per the Street Division's Large Trash Pickup guidelines. The gloves and trash bags are provided in cooperation with the Montgomery County Solid Waste District's "Keep Montgomery County Beautiful" program.

KEEP MONTGOMERY COUNTY

KEEP AMERICA BEAUTIFUL AFFILIATE

CAN - TASTIC

Each year we receive complaints about trash cans being left out in the open before and after trash day as well as trash not being properly placed in approved cans. Please refer to Moraine's Codified Ordinance 923.05 (MCO) which states the following.

923.05 PLACING CONTAINERS FOR COLLECTION

(a) It shall be the duty of the owner, occupant or person in charge of premises to place or cause to be placed not earlier than twenty-four hours prior to or later than 7am on the days scheduled for the collection of waste from the premises, the vessels or containers containing waste materials in the yard in a readily accessible location so as to be easily seen by waste collectors. This applies to both alley and street collections. No owner, occupant or person in charge of the premises shall place any vessels or containers containing waste materials or any waste materials not in containers or vessels in their yard or in public view earlier than twenty-four hours prior to a scheduled collection.
(Ord. 743-86. Passed 2/27/86)

Please remember to place all of your trash cans out of view before and after trash day either on the side or rear of your house or in your garage or shed. Also keep all trash in approved containers with a proper secured lid so it does not attract unwanted animals and bugs. The simple task of keeping your cans out of sight and sealed properly will have a positive effect on your home, neighborhood and cities appearance.

1414.02 DISPOSAL OF RUBBISH OR GARBAGE.

Every owner or occupant of occupied premises, shall dispose of all rubbish or garbage in a clean and sanitary manner by placing such rubbish or garbage in approved leak-proof, covered containers. All containers, dumpsters, or trash receptacles shall be kept closed or covered at all times. The premises around all rubbish or garbage containers shall be kept free from glass, garbage, rubbish, or debris.
(Ord. 1459-02. Passed 5-9-02.)

As always at any time if you have a question, comment or concerns regarding a property maintenance issue or questions about a permit you may contact Building & Zoning Administrator Tony Wenzler at 937-535-1038 or email twenzler@moraineoh.org.

Testing Hydrants

To ensure that hydrants are operating properly, the Fire Division will be checking hydrants the month of April during normal business hours, including Saturdays and Sundays. There is a small chance that rust might be stirred up in water pipes. It is best to do your laundry during non-business hours if possible.
Thanks for your cooperation.

Let The Water Run

All properties have drainage paths to carry surface water and water from downspouts. These drainage paths may be slight swales between properties that carry water downstream to the street or storm sewer or a larger open drainage ditch that carries water all the time. Newer developments have stormwater ponds designed to store water for a set period of time. Most of these stormwater features—swales, open ditches and ponds—are the property owner's responsibility to maintain. In general, ponds are part of a development's open space and maintenance responsibility falls to the homeowner's association.

Help prevent flooding by
keeping ditches clear.

Individual property owners with an open drainage ditch on your property are responsible to keep the drainage ditch clear by mowing or trimming the path and removing debris including trash, leaves, brush and trees that may grow or fall into and along the ditch. Water must be allowed a clear path to flow. Failure to keep the drainage ditch clear may result in altering the water's path enough to cause damage to your property or your neighbors'.

Grass clippings, yard debris, paint, oil, etc.—should never be dumped in an open drainage way or storm sewer. Laws prohibit dumping or blocking open drainage ways and violators may be prosecuted. If you observe someone illegally dumping into a storm sewer or a water body, please notify the City. The Ohio EPA has established guidelines regarding illegal dumping in stormwater drainage systems, visit epa.state.oh.us for more information.

City Construction Update

More great projects are gearing up this Spring! The City is striving to improve our residential roadways and improve your commute!

The City will be replacing deteriorated concrete curb and sidewalk on the streets listed below. ADA compliant curb ramps will also be installed as a part of this project. Concrete repair work is expected to be completed by June 2020. Concrete curb and sidewalk repairs in Moraine are not assessed to the property owners.

Following the completion of the concrete repair work, the streets listed below are also schedule to be repaved. This work involves removing the surface layer of the roadway and paving a new asphalt surface. As part of this project, the final surface layer of asphalt will also be paved in both sections of the new Pinnacle Ridge subdivision. This work is scheduled to be completed by Fall 2020.

Scheduled streets include Northlawn Ave, Southlawn Ave, Holman Street, Gladstone Street, Cloverlawn Ave, Cadillac Street, Telhurst Court, Portage Road, Old Sellars Road, Lakehurst Street, Hoylake Court and North Moraine Drive.

For questions about roadway construction, please contact Alisha Burcham, City Engineer, at 937-535-1031.

Tornado Safety Tips & Facts

By: weathersafety.ohio.gov

Before a Tornado

Know the signs of a tornado. Be alert to changing weather conditions. Look for the following danger signs:

- Dark, often greenish sky
- Large hail
- A large, dark, low-lying cloud (particularly, if rotating)
- Loud roar, similar to a freight train

If you see approaching storms or any of the danger signs, be prepared to take shelter immediately

Know the difference between a Tornado Watch and a Tornado Warning.

- Tornado Watch means a tornado is possible. Stay tuned to your local radio station or television for weather updates. Know where you'll shelter, if necessary.
- Tornado Warning means a tornado is happening or imminent. Take shelter immediately.

Listen to NOAA Weather Radio or to your local radio or television stations for the latest weather and safety information. In any emergency, always listen to the instructions given by local emergency management officials

If you are a person with special needs, register your name and address with your local emergency management agency, police and fire departments before any natural or man-made disaster.

NOAA Weather Radio has available an alerting tool for people who are deaf or have hearing impairments. Some weather radio receivers can be connected to an existing home security system, much the same as a doorbell, smoke detector or other sensor. Move to an underground shelter, basement or safe room. If none is available, a small, windowless interior room or hallway on the lowest level of a sturdy building is the safest alternative.

Take additional cover by shielding your head and neck with your arms and putting materials such as furniture and blankets around you.

Remember: No area of a mobile home is safe during a tornado. If you have access to a sturdy shelter or vehicle, go there immediately, using your seat belt if driving.

Be aware of emergency shelter plans in stores, offices and schools. If no specific shelter has been identified, move to the building's lowest level. Try to avoid areas with large glass windows, large rooms and wide-span roofs such as auditoriums, cafeterias, large hallways or shopping malls.

During a Tornado

If you're outside or in a mobile home, find shelter immediately by going to the lowest level of a nearby sturdy building or to a pre-designated area, such as a safe room. Safe rooms and sturdy buildings are the safest structures to be in when tornadoes

threaten. Mobile or manufactured homes, even if tied down, do not offer protection from tornadoes.

If you cannot quickly get to a shelter, get into your vehicle, buckle your seat belt and try to drive to the nearest sturdy shelter or pre-designated safe room.

If you experience flying debris while driving, pull over and park. Choose to either stay in your vehicle, stay buckled up, duck down below the windows and cover your head with your hands. Or find a depression or ditch, exit your vehicle, kneel or lie face-down in the depression, and use your arms and hands to protect your head.

Never seek shelter under highway overpasses and bridges. You are safer in a low, flat location.

Never try to out-drive a tornado in urban or congested areas. Instead, leave the vehicle immediately for protection in a sturdy building.

Outdoor areas are not protection from flying debris. Flying debris from tornadoes causes most fatalities and injuries.

After a Tornado

If you are trapped, do not move about or kick up dust. Tap on a pipe or wall or use a whistle, if you have one, so that rescuers can locate you.

Keep listening to EAS, NOAA Weather Radio, and local officials for updates and instructions.

Check-in with family, friends and neighbors by texting or using social media. Save calling on the phone for emergencies. Dial 911 for life-threatening or serious emergencies.

Things To Know About Tornado Sirens

Tornado sirens are only designed to be heard while you are outside. Many people rely on them wherever they are, to warn them of dangerous weather, but unfortunately don't realize these sirens will not be heard indoors.

Watch out for debris and downed power lines.

Stay out of damaged buildings and homes until local authorities indicate it is safe.

Use extreme caution during post-disaster clean-up of buildings and around debris. Do not attempt to remove heavy debris by yourself.

Photograph the damage to your property in order to assist in filing an insurance claim.

Do what you can to prevent further damage to your property (e.g., putting a tarp on a damaged roof), as insurance may not cover additional damage that occurs after the storm.

If your home is without power, use flashlights or battery-powered lanterns, rather than candles, to prevent accidental fires.

RESEARCH, DISCOVER AND UNCOVER MORAINE'S HISTORY

THE GREAT FLOOD IN 1913 DEVASTATED MANY AREAS OF MORAINE

Everyone knows about the Great Dayton Flood of 1913 which killed 360 people and caused \$100 million in damages but the same Miami River floodwaters that ravished Dayton also flooded Moraine to the south. Farmland on the east side of the river was affected as well as the low lying Miami Shores area to the southwest. A second large flood occurred in 1959. The 1959 flood was the catalyst to seek funding to build the levee around Miami Shores and other southern Miami River flood challenged locations.

The 1913 flood caused so much damage that it caused the end of the historical Miami-Erie Canal that ran through Moraine (where Dryden Road and Arbor Blvd. are today) and throughout Ohio.

In 1913, the storm that caused the great tornadoes in Omaha, Nebraska encountered two other weather fronts, causing record breaking rainfall. The partially frozen ground in the Dayton area was already soaked with rain from other storms, so on March 24th, the day after Easter Sunday, when the 8-11 inches of rain quickly fell, very little of the water soaked into the ground. Instead it ran off into the streams and rivers, the deluge of water causing them to quickly overflow. In a four hour period Main Street in Dayton was 10 feet deep in water. The water peaked at 20 feet deep in downtown the early morning of March 26 and swelled in some places to more than a mile wide on either side.

Six miles south from downtown Dayton the Miami River overflowed the banks of Miami Shores. The protective levee that is there today would not be built for another 47 years. The high waters rushing at 25 MPH rose from the standard ground height of 717 feet at Elter Drive to a peak of 724.2 feet causing damage to farm land and the few houses that existed at that time.

The volume of water that flowed into the Dayton and south Dayton areas totaled nearly four trillion gallons, an amount equal to the flow over Niagara Falls in a month. Cleanup and recovery efforts took approximately one year.

In 1915 the Miami Conservancy District was established and began building flood control works and earthen dams to prevent another 1913 flood from occurring. Five dry dams, 43 original miles of levees and channel improvements were built between 1918 and 1922.

Even with these flood protective measures, the Miami Shores area of Moraine was still vulnerable to floods. See next month's Moraine Messenger article on the historic 1959 Miami Shores flood.

Income Taxes Are Due April 15, 2020

ALL RESIDENTS who live in the City for the entire year or partial year are required to file a City income tax return with the Tax Division on an annual basis, whether or not tax is due.

If you are retired or have no taxable income, you may qualify for the Declaration of Exemption Return. If you are permanently retired or disabled, you can use the Declaration of Exemption Return for a permanent exemption.

The filing due date for the 2019 tax year is Wednesday, April 15, 2020. If you file your return after this date, you must attach a copy of your Federal extension with your City Income Tax Return. The Federal extension form is only extending your filing deadline and not for payment of tax due. Penalty and interest will be charged for unpaid tax balances. (\$25 a month late filing penalty not to exceed \$150), late pay penalty (15%) and late pay interest (7%) for late/non-filed tax returns)

For additional information on filing, income tax forms or payments, please go to our website ci.moraine.oh.us, call the Income Tax Division at 937-535-1026 or email incometax@moraineoh.org.

As a convenience, we accept MasterCard and Visa for payments at the Finance Department's front desk.

Walk-in office hours will be available for filing assistance Monday-Friday from 8:30am-4:30pm.

***Tax Forms may be downloaded from the City's website at ci.moraine.oh.us/taxes.
Tax forms are also available at the Municipal Building.***

Go Native!

By: Ohio Department of Natural Resources

A healthy and diverse ecosystem is important for clean air and water, soil stability and provides critical food and shelter for wildlife.

Whether adding a few native plants to your landscape or substituting them in for exotic species, there are many benefits to going native! The interest in native gardening is increasing, so check with your local nursery to determine what's available and which plants are best suited to your landscape needs.

Why plant native species?

- Good for wildlife, such as birds and butterflies
- Costs less and saves time due to lower maintenance requirements
- Saves water because natives are best suited for an Ohio climate
- No need for fertilizers or pesticides
- Native plants control erosion and filter storm water

Charity Quarter Auction - May 1

This popular fun filled event meets the first Friday of every month from 6pm - 9pm at the GCC. This is a charitable event used to raise funds for the [Moraine Reach Program](#). The money will help local teens to have fun, gain community service hours and experience new things.

Admission is \$1 per paddle. Participants bid with quarters on items provided by area vendors. Optional raffles include 50/50 and Queen/King of the Night--a chance to bid free all night, chance for \$20 in scratch off tickets, and a Big Ticket item. Concessions available. Bring some quarters and your friends! If you have any questions about the event or if you are interested in being a vendor, contact mydirectnetwork.25@gmail.com.

Animals Attending Aftercare

The Germantown Animal Outreach Program came to our GCC Aftercare Program back in February. They brought J.J. the black and grey rattlesnake, River the screech owl, and the two boxed turtles, Jerry and Myrtle. The kids were able to touch the snake and turtles. They talked about habitat-where they live, what they eat and why Germantown had them instead of them living in the wild. All the children had a great afternoon learning new things and seeing the animals.

The PRC accepts Silver Sneakers Memberships!

Silver Sneakers is a health and fitness program designed for adults 65+ that's included with many Medicare Plans. Silver Sneakers members can exercise at our facility, attend classes and even enjoy the gym at no cost. If you are not sure if you qualify for this membership, see the front desk staff or contact your health insurance company.

Day Camp Registration Information!

Registration begins April 15 at the PRC for ages 6-12 year olds! For more information call 937-535-1060.

From morning drop-off to evening pick-up, your children will experience crafts, sports, games, guest speakers, talent shows, science experiments and more! Weekly field trips are famous for combining excitement and learning! After a quick bus ride, we will be exploring awesome kid-spots around the City.

- \$60/wk per Resident Child
- \$120/wk per Non Resident Child

Camp payment is due at least seven days prior to the first day of camp. Failure to pay for your child's registration seven days before your child's camp start date will result in their space being released for others to utilize.

Second Child Discount

For families enrolling more than one child, a fee reduction of \$10 per week for the second enrolled child is available, as well as, with any subsequent children also enrolled. If utilizing this discount, all children must be members of the same household. Please ask staff at the time of camp registration if your family qualifies for this discount. This discount applies to both resident and non-resident children.
