# MESSENGER

August  
2019

*Progress Through Unity*

Thanks to funding by the Snyder Brick & Block, the Moraine Rotary Club and a grant from Rotary District 6670, over a dozen new Moraine bike trail signs have been installed by the Moraine Street Division along the trail.

"Thanks to Mark Snyder of Snyder Brick & Block partnering with us, we have added many bike trail signs and will add additional signage to the Wright Brothers Pinnacles Hiking Trail which is under development," stated Moraine Rotary President Mike Moorhead.

The Wright Brothers Pinnacles Trail will be a 1.1 mile hiking trail that leads to the Moraine Pinnacles, a cliff where in 1899 the Wright Brothers watched buzzards soaring in the cliff updrafts and came up with their wing warp design for their eventual airplane.

# To Park or Not to Park, That is the Question

Each year the City receives complaints about cars that are parked in the grass and dirt or from cars that are unlicensed parked in the driveway, next to the garage or behind the house. Moraine's Codified Ordinance (MCO) states the following.

**1412.02 Parking.** All vehicles shall park in a designated parking area. All parking areas shall be graded and provided with a suitable parking surface of asphalt, gravel, or concrete. No parking shall be allowed in a grass or landscaped area front, side or rear yards. This section shall not apply to permit agricultural uses.

**353.02 Inoperable or unlicensed vehicles on private property.** (a) No person shall abandon, discard, store or permit to be stored, or knowingly permit to remain on premises under his control, a motor vehicle or discarded parts of a motor vehicle, which vehicle is unlicensed or inoperable within the meaning of this chapter.

Please remember that all vehicles must be parked in a designated parking area that is paved with concrete, blacktop or gravel. Unlicensed or inoperable vehicles must be stored in a garage or removed from of the property. This helps improve the look of our homes, neighborhood and City.

As always at any time if you have a question, comment or concerns regarding a property maintenance issue or questions about a permit you may contact Building and Zoning Administrator Tony Wenzler at 535-1038 or e-mail to [twenzler@moraineoh.org](mailto:twenzler@moraineoh.org).

## MVCC GATEway Fiber Project

Written by: MVCC

On Thursday, June 13th, the Miami Valley Communications Council (MVCC) held a ceremony to mark the official launch of the GATEway Fiber Network, a 44-mile high speed public fiber optic network.

The GATEway Fiber Network, one of the first multi-jurisdictional fiber optic networks in the country, is a collaborative partnership that links MVCC, the Miami Valley Educational Computer Association (MVECA), and the cities of Kettering, Centerville, Oakwood, Moraine, West Carrollton, Miamisburg and Springboro in a 10-gigabit data network.

This \$1.14m infrastructure investment allows the cities to partner more efficiently on joint technology projects, to gain economy of scale on shared telecommunication services such as internet access, and allows the cities to interconnect dispatch and emergency operations centers thereby increasing the reliability of public safety response.

By creating a public fiber network, MVCC and its member cities will encourage other government agencies, non-profits and businesses to utilize capacity on the GATEway Fiber Network to spur innovation, encourage business growth, and establish a foundation for upcoming technologies such as 5G, autonomous vehicles and smart city infrastructure.

# 2nd Annual Car & Bike Show and Auction

On September 7, 2019, the Pirates Robotics team is hosting its annual fundraising event from 10am until 3pm, at West Carrollton High School, 5833 Student St. West Carrollton, OH.

A dazzling array of the area's finest vehicles offering an assortment of makes, models and years will be on display from modern to vintage, cars, trucks, rat rods and motorcycles. Trophies awarded to the winners of each category and dash plaques provided for the first fifty entries.

The public registration fee is \$10, and student registration is \$5. Anyone interested in entering a vehicle should contact [wpcrcarshow@gmail.com](mailto:wpcrcarshow@gmail.com) or register at the event the day of the show.

This event is free, family-friendly, and open to the public. Community first responders from Moraine and West Carrollton will attend with their vehicles and will be judging car show entries.

Come bid on a relaxing weekend getaway or a day of pampering or maybe a nice gift for your spouse. Dozens of local businesses have generously donated items for the silent auction. A wide selection of products and services, from dining and entertainment to hotels and salons will be available to bid upon. The food truck, Rolling Oasis, will be selling concessions and Cold Stone Creamery will have tasty ice cream treats available for purchase. They will have a DJ as well with the music of the era.

This team is completely self-funded, and all money raised goes to their upcoming season. For more information about West Carrollton High School Robotics, please visit our website at <https://www.wcrobotics.org>, on Twitter @robopirates6032, on Facebook at WC Pirate Robotics 6032, and on Instagram @robopirates6032.

Pirate Robotics - Team 6032 - was founded by West Carrollton High School in 2015. Each year, we compete in the FIRST Robotics Competition.

FIRST Robotics blends the excitement of sport with the rigors of science and technology. Every year, our team designs, builds, and programs a robot to compete against teams from around the world. Professional mentors volunteer their time to help guide our team. We also create a team "brand," conduct outreach events, and spread STEM in our community.

# RESEARCH, DISCOVER AND UNCOVER MORAINÉ'S HISTORY

AMERICA'S FIRST DRONE, THE BUG, WAS MADE IN MORAINÉ

In April 1917, Charles F. Kettering invented the unmanned Kettering Aerial Torpedo, nicknamed the "Bug." His design team included Orville Wright. After successful testing, the government ordered 20,000 Bugs to be built. The Dayton-Wright Airplane Company on Springboro Road in Moraine built fewer than 50 Bugs before the World War I Armistice and the Bug never saw combat.

The Bug, a technical marvel for its time, weighed 530 pounds loaded and looked like a propeller driven torpedo with wings. Launched from a four-wheeled dolly that ran down a portable track, the Bug's system of internal pre-set pneumatic and electrical controls stabilized and guided it toward a target.

After a predetermined length of time, a control closed an electrical circuit, which shut off the 40 horsepower engine. Then the wings were released causing the Bug to plunge to earth where 180 pounds of explosive detonated on impact. The Bug had a maximum speed of 100 mph and had a range of 75 miles.

After WWI, the US Army Air Service conducted additional tests but the scarcity of funds in the 1920's halted further development of the Bug. However, lessons from the Bug were used in the development of the first guided missiles and radio-controlled drones. The photo is a full-sized reproduction of the Bug on display at the Air Force Museum in Dayton. The vintage photo shows a Bug ready to be launched with Dayton-Wright employees standing by to observe.

# AUGUST Volunteer Program

Have a good time and make a difference!

Volunteering for the City is one of the best examples of government and people working together for the good of the community.

# SPECIAL EVENTS

## HOOK TEENS ON FISHING

Location: Deer Meadow Shelter

Date: Friday, August 9

Time: 5–8pm

Age: 11-17

Cost: FREE

Hook Teens on Fishing is an introduction to fishing for youth ages 11-17.

This program will provide a meaningful, enjoyable fishing experience for participants, while helping them develop skills for a lifelong hobby.

Participants will move through stations learning about fishing equipment and terms, water safety, conservation, how to tie a hook, casting, and identifying local fish. After passing through all the stations, youth will enjoy fishing in Deer Meadow's pond. Volunteers will include successful sport anglers sharing their love of fishing with participants and mentors from our REACH Mentoring Program. Parents are encouraged to stay and enjoy fishing with their kids. Refreshments will be provided. All participants will receive a new fishing pole.

## CARDBOARD BOAT REGATTA

Location: Deer Meadow Shelter

Date: Saturday, August 24

Time: 11am – 2pm

All Ages
